The Office of National Water Resources

**Request for an in-person hearing and site visit for the “SDGs Business Needs Confirmation Survey on Operable at Any Water Level Type Horizontal Submersible Pump in Southeast Asia” (the Survey)**

Dr. Surasri Kidtimonton the Secretariat of the Office of National Water Resources,

We are reaching out to request your esteemed presence for a hearing and site visit aimed at evaluating areas susceptible to flooding, particularly those with significant fluctuations in water levels and flow rates. Our goal is to gain insights into the challenges and potential solutions for managing flood risks in valuable land areas that are highly urbanized or industrialized.

Hence, your generous assistance in welcoming the survey team would be greatly appreciated. We would be grateful if you could grant their access to necessary information and survey locations.

In this regard, we would appreciate it if you could conduct a hearing and site visit in the following manner:

**Preferred Date and Time**

Hearing: September 9th 13:30-14:30

Site Visit: September 9th 14:30-15:30

**Preferred Positions**

To ensure a comprehensive understanding and productive discussion, we kindly ask for the participation of a member at Director level or equivalent, who can make a decision to cooperate for the survey on behalf of the organization, as well as a General Manager or Manager who is responsible for practical operations.

**Site Visit Selection Criterion**

- ✧ Areas with significant water fluctuations in flow rate and water level, prone to inland flooding, and where land is highly valued (potentially vulnerable to flood risks) such as industrialized and/or urbanized locations
- ✧ A site with an existing pump gate facility
- ✧ A site with conventional pump stations that are already in operation

**Visiting Members**

We anticipate the participation of seven members and a translator from our side, and we have attached their affiliations, positions, and names as follows.

| No. | Company Name                         | Position               | Name              |
